[Community name] rules

This community is for [who it is for]. These rules keep it useful for everyone here.

1. Stay on topic. Posts should be about [topic]. Anything else goes in [category] or gets removed.
2. Disagree as much as you like, and keep it about the idea instead of the person.
3. Ask before you sell. Don't promote your own products or send sales messages to members unless [your rule, for example in the Wins category on Fridays].
4. Keep private things private. Don't share screenshots or details from this community outside it without permission.
5. No spam or harassment. Posts or messages that harass a member, or that repeat the same promotion, get removed.
6. Post in the right category so people can find things later.

If you see a post or comment that breaks a rule, use Report and a moderator will look at it. The first time, we remove the post and message the member. If it happens again, we remove the member from the community.
